1. Execution Factors Explained

Explanation of the importance CLSA gave to the execution factors of price, costs, speed, and likelihood of execution or any other consideration including qualitative factors when making assessments of the quality of execution.

As specified in CLSA's Order Execution Policy, CLSA considers the following execution factors: price; costs; speed; likelihood of execution and settlement; size of the transaction; nature of the transaction; or any other consideration relevant to execution. Under CLSA's policy, such other considerations can include (without limitation) the overall cost of the transaction (including any commissions received by CLSA and/or its affiliates or any costs for executing the order on an execution venue); timely execution availability of price improvement; the potential impact of the transaction on price; importance of retaining commercial confidentiality in relation to trading activities or intentions; liquidity of the market (which may make it difficult to execute an order); order information leakage; trading conflict; market conduct; market impact; venue liquidity and counterparty risk. The relative importance of these factors shall be determined by reference to the "execution factors" being: (1) the characteristics of the client including the categorisation of the client as a professional client; (2) the characteristics of the client order; (3) the characteristics of the financial instrument that is subject to the order; and (4) the characteristics of the Brokers and/or Execution Venues to which that order can be directed.

To ensure that we are consistently able to deliver best execution to our clients, we monitor on an ongoing basis the quality of execution obtained from the execution venues and brokers used to execute client orders. Our monitoring consist both of trade by trade monitoring and overall trend monitoring of the performance of the execution factors. For a detailed description of how we carry out client orders, application of execution factors and how we prioritise the factors, please refer to our Order Execution Policy.
