Risk Disclosure Statement Schedule

This Risk Disclosure Statement Schedule does not disclose all of the risks and other significant aspects of trading in securities, futures and options. In light of the risks, you should undertake such transactions only if you understand the nature of the contracts (and contractual relationships) into which you are entering and the extent of your exposure to risk. You should carefully consider whether trading is appropriate for you in light of your experience, objectives, financial resources and other relevant circumstances. Please read this Schedule carefully, and ask questions and take independent advice as you consider appropriate.

Securities Risk Disclosure Statement

- You acknowledge that the price of Securities can and does fluctuate, sometimes dramatically, and that the price of any individual security may experience downward movements, and may become valueless. You appreciate therefore that it is as likely that losses will be incurred rather than profit made as a result of buying and selling securities. This is a risk that you are prepared to accept.
- You acknowledge that we are able to (i) enforce security placed with us, (ii) force the sale or purchase of securities, (iii) cease payment of money to which you would otherwise be entitled and (iv) terminate our agreement with you if you fail to make any payment, fail to hand over securities or fail to place security in accordance with our agreement.
- You acknowledge that there are risks in leaving Securities in our custody or in authorising us to deposit securities as collateral for loans or advances made by us or authorising us to borrow or loan Securities and you confirm that you are prepared to accept such risk notwithstanding that in these circumstances you face the risk of loss of such Securities.
- You confirm that you understand the short selling requirements in Thailand and, in particular, that uncovered short selling on Exchanges in Thailand is unlawful.

Electronic Communication and Trading System Risk Disclosure Statement

- You understand that the electronic communication systems (including the internet) may not be a reliable medium of communication due to unpredictable traffic congestion or other reasons and that such unreliability is beyond our control. This may give rise to situations, including delays, in transmission and receipt of your instructions or other information, delays in execution or execution of your instructions at prices different from those prevailing at the time your instructions were given, misunderstanding and errors in any communication between you and us and so on. Whilst we will take every possible step to safeguard our systems, client information, accounts and assets held for the benefit of our

clients, you accept the risk of conducting transactions via electronic communication systems.

- Electronic trading facilities are supported by computer-based component systems for the order-routing, execution, matching, registration or clearing of trades. As with all facilities and systems, they are vulnerable to temporary disruption or failure. You understand that your ability to recover certain losses may be subject to limits on liability imposed by the system provider, the market, the clearing house and/or member or participant firms. Such limits may vary: you understand that you should ask us for details in this respect.
- Trading on an electronic trading system may differ from trading on other electronic trading systems. If you undertake transactions on an electronic trading system, you understand that you will be exposed to risks associated with the system including the failure of hardware and software. You understand that the result of any system failure may be that your order is either not executed according to your instructions or is not executed at all.

Client Assets Received or Held Outside Thailand Risk Disclosure Statement

- Client assets received or held by the licensed person or registered outside Thailand are subject to the applicable laws and regulations of the relevant overseas jurisdiction which may be different from the laws of Thailand. Consequently, such client assets may not enjoy the same protection as that conferred on client assets received or held in Thailand.

Margin Trading Risk Disclosure Statement

- The risk of loss in financing a transaction by deposit of collateral is significant. You understand that you may sustain losses in excess of your cash and any other assets deposited as collateral with us. Market conditions may make it impossible to execute contingent orders, such as “stop-loss” or “stop-limit” orders. You understand that you may be called upon at short notice to make additional margin deposits or interest payments. If the required margin deposits or interest payments are not made within the prescribed time, you understand that your collateral may be liquidated without your consent. Moreover, you will remain liable for any resulting deficit in your account and interest charged on your account. You understand therefore that you should carefully consider whether such a financing arrangement is suitable in light of your own financial position and investment objectives.

Providing an Authority to Hold Mail or to Direct Mail to Third Parties Risk Disclosure Statement

- If you provide us with an authority to hold mail or to direct mail to third parties, you understand that it is important for you to promptly collect in person all contract notes and statements of your account and review them in detail to ensure that any anomalies or mistakes can be detected in a timely fashion.

Providing an Authority to Repledge Your Securities Collateral etc Risk Disclosure Statement

- There is risk if you provide us with an authority that allows us to apply your securities or securities collateral pursuant to a securities borrowing and lending agreement, repledge your securities collateral for financial accommodation or deposit your securities collateral as collateral for the discharge and satisfaction of our settlement obligations and liabilities.
- If your securities or securities collateral are received or held by us in Thailand, the above arrangement is allowed only if you consent in writing. Moreover, unless you are a professional investor, your authority must specify the period for which it is current and be limited to not more than 12 months. If you are a professional investor, these restrictions do not apply.
- Additionally, your authority may be deemed to be renewed (i.e. without your written consent) if we issue to you a reminder at least 14 days prior to the expiry of the authority, and you do not object to such deemed renewal before the expiry date of your then existing authority.
- You are not required by any law to sign these authorities. But an authority may be required by us, for example to facilitate margin lending to you or to allow your securities or securities collateral to be lent to or deposited as collateral with third parties. We should explain to you the purpose for which one of these authorities is to be used.
- If you sign one of these authorities and your securities or securities collateral are lent to or deposited with third parties, those third parties will have a lien or charge on your securities or securities collateral. Although we are responsible to you for securities or securities collateral lent or deposited under your authority, a default by us could result in the loss of your securities or securities collateral.
- A cash account not involving securities borrowing and lending is available from most licensed or registered persons. If you do not require margin facilities or do not wish your securities or securities collateral to be lent or pledged, you understand that you should not sign the above authorities and ask to open this type of cash account.
